

This NMO type antenna mounting bracket is designed for installation on these specific vehicles:

Jeep Wrangler 2018-2026
Jeep Gladiator 2020-2026

Model#: JPANTNCG

Tools Required:

10mm socket and driver, or 10mm box end wrench

Install location:

Fender bolt, driver side

Please Read: Always check for continuity between the bracket and chassis ground. If there is a problem with grounding, place the provided star washer between the bracket and the bolt head.

Step 1) Set the parking brake. Open hood and remove the fender bolt on the driver side of the engine compartment.

Step 2) Align the antenna bracket with the bolt hole. Reinstall the bolt and tighten.

Step 3) Insert the NMO or required connector to mate with the antenna and tighten securely.

NCG Company may not be held liable for any damage to the vehicle before, during or after the installation or removal of this antenna bracket.
NCG may not be held liable for any personal injury resulting from accident or improper installation.
